

## Mitigation Procedures, Strategies and Preparation for Returning to School

### Cleaning/Disinfecting:

- Extra staff hired so that one person will be dedicated to continual disinfecting high touch areas during the school day.
- Playground disinfecting during the day; some areas may be closed.
- Regular cleaning and disinfecting each night.
- Electrostatic disinfecting machine used throughout the building each day.
- 2 portable electrostatic disinfecting machines used on buses and smaller areas each day.
- Hand sanitizing stations will be installed in key areas.
- Disposable masks have been purchased and we will continue to stockpile as available.
- Face shield (60) for staff that need/want to use these.
- Desk shields installed for all office staff.
- Portable desk shields available for teachers to use with small groups or during 1:1 instruction.

### Building Use:

- Non-essential furniture and items removed from classrooms to maximize space.
- An additional room near the front door will be used for students exhibiting symptoms, keeping them isolated from the main office and nurse's office. Parents will be able to pick students up here.
- Once school begins, access will be strictly limited. Visitors will not be allowed during school hours.
- Staff lounge and cafeteria will not be used (or strictly limited) to prevent close-contact in large groups.
- After school activities will require thorough disinfecting each time; outside groups using our facilities will also be limited.

### PPE/Social Distancing:

- Mask requirements/recommendations for in-school and on buses for adults and students. A decision on requirements and recommendations will happen at the August Board meeting.
- Social distancing and room set-ups: desks separated as much as possible, students all facing one direction.
- Recess modifications.
- PE and Vocal Music activities adjusted.
- Staggered passing times to limit the number of students in hallways at one time.
- Provide continuous learning (online) to any students who cannot attend in person or parents are not comfortable sending them.
